ACKNOWLEDGMENT

As we understand that the eProject is a step-by-step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through email support.

We would like to send a great thank to our professor and others student for the adorable supports during the time in project.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knownledge in web developing world.

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely,
Team Group 06

SYNOSIS

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back *eprojects@aptech.ac.in* as the assigned schedule.

Design plan: OceanGate	Document Name: Problem Definition	SWD/Form to No.01/PD/Ver 1.0
Effective Date: 23-12-2023	Version 1.0	Page No: 5 of 20

PROBLEM DEFINITION

The Web site is to be created based on the following requirements.

- 1) The Home Page should be created making use of Frames with a suitable logo
- 2) The site should display a menu which will contain the options for brief introduction about the various products available, location of the shop and any other information if required.
- 3) The information should be categorized according to the brand names of the products like if a User wants to see only Samsung products then he click on a Link/button/menu etc and he will see only That Brand products.
- 4) When a user selects any particular brand, a list of products for that brand will be displayed
- 5) A brief summary of features of individual products should be displayed on the Web Page along with the product but detailed Features should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
- 6) The user should also be able to compare the various products of different as well as similar brands.

CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS)

Project Objective:

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application.

The objective is not to teach you HTML/JavaScript/Dreamweaver/HTML5 but to provide you with a real life scenario and help you create basic applications using the tools.

You can revise the chapters before you start with the project.

This project is meant for students who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given.

Kindly get back to eprojects team in case of any doubts regarding the application or its objectives.

Input to the system:

- Searching Product
- Compare product

Output from the system:

- Show products, if not show product not found
- Products's detail

Design plan: OceanGate	Document Name: CRS	SWD/Form to No.01/PD/Ver 1.0
Effective Date: 23-12-2023	Version 1.0	Page No: 8 of 20

Process:

- Check registration information already exists or not
- Check login information
- Check information feedback
- Check the product is in stock or not... and some other handling

Expected delivery date: 23-January-2024.**List of deliverables:**

- Document Word, PDF.
- User Guide.
- Source code.

HARDWARE/ SOFTWARE REQUIREMENTS

Hardware

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

Software

- Notepad/HTML editor
- Dreamweaver / Javascript
- IE 5.0/ Netscape 6.0

Compare products

The mockup shows a 'Compare Products' page. At the top, there are navigation icons for Home, LOGO, Address Select, a search bar ('Enter your search products...'), and user information (0 123 456 78, Shopping cart, Order lookup, Member). Below this is a breadcrumb trail: Home / Compare Products. The main title is 'Compare Products'. The page displays two products side-by-side:

- Product 01:** Features a search bar, a product icon (orange square with a mountain), the text 'Product 01', and a description: 'Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.' It includes an 'Add Cart' button.
- Product 02:** Features a search bar, a product icon (blue square with a green hill and blue sky), the text 'Product 02', and a similar description. It also includes an 'Add Cart' button.

A vertical line with a circle labeled 'VS' connects the two products. Below this, under the heading 'Resual Compare', there are two large text input fields for Product 01 and Product 02, each consisting of four horizontal lines. At the bottom, there is a note: 'Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.'

Effective Date: 23-12-2023	Version 1.0	Page No: 16 of 20

The mockup shows a web page header with navigation icons (list, logo, address, search, phone, cart, order lookup, member), a breadcrumb path ('Home / Compare Products'), and a main title 'Compare Products'. Below the title is a comparison section with two search fields ('Enter your search...') and a 'VS' symbol. To the right is a 'Suggested products' section with four cards, each featuring a small image, a heading, and some placeholder text ('Heading Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.'). Below this is a row of four 'Heading' sections with identical placeholder text. At the bottom is a large text area containing the same placeholder text.

Product's detail

The wireframe shows a product detail page with the following structure:

- Header:** Includes a logo, address select, search bar ("Enter your search products..."), and navigation links (0 123 456 78, Shopping cart, Order lookup, Member).
- Breadcrumbs:** Home / Compare Products.
- Title:** Description product ★★★★☆
- Image Area:** A large image placeholder with arrows for zooming, surrounded by four smaller thumbnail images.
- Price:** 1.999.999 ₫ 2.349.999 ₫
- Promotion:** promotion
- Heading:** Heading
- Text:** Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.
- Buttons:** Buy, Installment, Installment via card.
- Address:** Address input fields with placeholder text: "Cras justo odio Dapibus ac facilisis in Morbi leo risus Porta ac consectetur ac".
- Comments:** A section for comments with a "Comment" input field and a "Send" button. It includes a user comment from "User 01" and a reply from "Admin".
- Product Grid:** A row of five product cards, each with a small image, a heading, and a short text description.
- Footer:** A footer section with four headings and their corresponding descriptions.
